**Copyright**

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), all translation rights as well as the right to publish the article in any electronic form. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

An author may make an article published by Springer-Verlag available on a personal home page provided the source of the published article is cited and Springer-Verlag is mentioned as copyright holder. Authors are requested to create a link to the published article in LINK, Springer's Internet service. The link must be accompanied by the following text: The original publication is available in LINK at http://link.springer.de. Please use the appropriate URL and/or DOI for the article in LINK. Articles disseminated via LINK are indexed, abstracted and referenced by many abstracting and information services, bibliographic networks, subscription agencies, library networks, and consortia.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

*Special regulations for photocopies in the USA:* Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0933-5846, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

The Canada Institute for Scientific and Technical Information (CISTI) provides a comprehensive, world-wide document delivery service for all Springer-Verlag journals. For more information, or to place an order for a copyright-cleared Springer-Verlag document, please contact Client Assistant, Document Delivery, Canada Institute for Scientific and Technical Information, Ottawa K1A 0S2, Canada (Tel. +1-613-993-9251; Fax +1-613-952-8243; e-mail: cisti.docdel@nrc.ca).

# Contents of Volume 38 (1999)

Baaz M, Veith H: Interpolation in fuzzy logic 461
Butz C: A topological completeness theorem 79

Carlson TJ: Ordinal arithmetic and $\Sigma_1$-elementarity 449
Chiari M, Krajíček J: Lifting independence results in bounded arithmetic 123

Grädel E, Malmström A: 0-1 laws for recursive structures 205
Grädel E, Otto M, Rosen E: Undecidability results on two-variable logics 313

Hirst JL: Reverse mathematics of prime factorization of ordinals 195
Huuskonen T, Hyttinen T, Rautila M: On the $\kappa$-cub game on $\lambda$ and $I[\lambda]$ 549
Hyttinen T → Huuskonen T

Imhof H: Logics that define their own semantics 491
Ishmukhametov S: On the r.e. predecessors of d.r.e. degrees 373

Jin R, Shelah S: Possible size of an ultrapower of $\omega$ 61

Keremedis K: Some remarks on category of the real line 153
Krajíček J → Chiari M
Krivtsov VN: Note on extensions of Heyting's arithmetic by adding the "creative subject" 145

Lifsches S, Shelah S: Random graphs in the monadic theory of order 273

Malmström A → Grädel E
Marshall MV, Schwarze MG: Rank in set theory without foundation 387

Negri S, Soravia D: The continuum as a formal space 423
Negri S: Sequent calculus proof theory of intuitionistic apartness and order relations 521

Niggl K-H: Subrecursive functions on partial sequences 163

Otto M → Grädel E
Otto M: Bounded variable logics: two, three, and more 235

Point F: Ultraproducts and Chevalley groups 355
Preface: Logic Colloquim '95, Haifa, Israel 203

Rautila M → Huuskonen T
Rosen E → Grädel E
Rosen E: An existential fragment of second order logic 217

Scheepers M: The length of some diagonalization games 103
Schindler R-D: Weak covering and the tree property 515
Schwarze MG → Marshall MV
Shelah S → Jin R
Shelah S → Lifsches S
Shen Y: Elimination of algorithmic quantifiers for ordered differential algebra 139
Soravia D → Negri S
Stolboushkin AP, Taitslin MA: Normalizable linear orders and generic computations in finite models 257

Taitslin MA → Stolboushkin AP
Titani S: A lattice-valued set theory 395
Tsujishita T: Construction of universal modal worlds based on hyperset theory 1

Veith H → Baaz M

Waagbø G: Denotational semantics for intuitionistic type theory using a hierarchy of domains with totality 19
